Enterprising Answers for Business

A well-strategized website is powerful. It can “Take Your Business Places” where the view of possibilities is limitless. **S3 Solution** creates custom websites that provide an integral role in an organization’s growth and productivity, designed to easily expand & evolve in alignment with long-term goals.

Whether asked to **Create, Develop** or **Maintain** your website and organization’s strategic digital media presence, **S3 Solutions** thoughtfully explores the best way to present it – with your objectives at the forefront.

Your web site design is not just an online presence – it’s the best, most cost-effective marketing tool out there and can put your firm on top of the search engine rankings, on top of the competition, on top of sales projections – and even “on top of the world”!

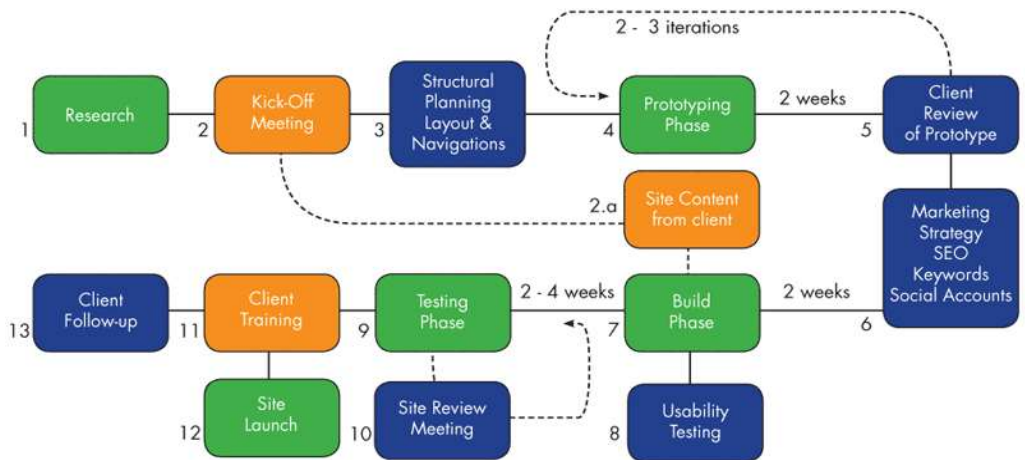

Cost to Create: Your web site is as unique as your business, and will reflect **S3 Solutions** quote for site design **Creation & Development**. “Starting” pricing spectrum costs typically are quoted in illustrated below:

Custom is ALL we Do! Regardless of the complexity of your website’s **creation and development** needs

S3 Solutions will facilitate a step-by-step process to understand your needs and deliver a suite of Digital Media services that help amplify the good news regarding your organization!

Most business websites we help design, **create, develop** and launch are in the **\$1,700 – \$5,000** price spectrum. Another way to break down the budget is to assume: **15% Creation + 25% Interface Design + 40% Development + 20% Project Management/Maintenance**

And Don’t Forget about Maintenance. **S3 Solutions’ DMM** (Digital Media Management) packages start at **\$100 / month**. [Contact](#) S3 Solutions **today** to **Create, Develop** or **Maintain** your website!
